many functions of accounting, banking, investment analysis, and software. You are able to open all the portfolios and pay bills directly from the Cashbook. The Cashbook is the central place where all funds will be spent. The Cashbook has many sub-ports and portfolio solutions allowing you to create all kinds of customized solutions. Furthermore, the software can also act as a portfolio evaluation software (portfolio & asset solutions). Depending on your needs, the software allows you to work with at least one banking solution (SWIFT, AT, SEPA, ClearSWIFT...) for bank account management. Furthermore, the software offers many options in order to receive reports (Cashbook, chart of accounts, invoices,..), which will be generated by the Cashbook. The bottom line: CashComm is a complete accounting package with advanced features for cash management, bank management, investment analysis and money management. It's the very best solution for private individuals, self-employed, medium-size to small-size companies and portfolio managers and asset managers. About CashComm CashComm™ is the leading Swiss e-banking software platform with over 8 years of proven track aa67ecbc25

CashComm
